

FIBERGLASS FABRIC 7628 BLACK

Specification	Unit	Value
Area Weight	g/sqm	200±10%
Width	cm	127*
Tensile Strength (Wrap)	N/50 mm	1,500
Tensile Strength (Weft)	N/50 mm	1,500
Loss on Ignition	%	1.9
Color		Black
Roll length	m ²	75

*Other widths available on request.

Glass Fabric 7628 is a woven E-glass fabric with a plain weave structure, designed for use in applications requiring non-combustible and insulating materials. It features excellent thermal resistance, dimensional stability, and mechanical strength. This fabric is widely used in industrial and construction sectors where fire resistance and durability are essential.
